

HND Air Conditioning and Refrigeration

Course Overview & Study Guide

Note: This document is an academic study guide produced by UNEE based on the official HND examination framework. It is not an official government syllabus. For the official syllabus, contact the Ministry of Higher Education, Cameroon.

About HND Air Conditioning and Refrigeration

Air conditioning and refrigeration are essential services in Cameroon's hot climate. ACR technicians are in constant demand as installed equipment needs regular servicing.

The program provides practical training in refrigeration systems, air conditioning installation and maintenance, and the electronics that control these systems.

As urbanisation increases and more buildings install climate control systems, demand for qualified ACR technicians will continue to grow.

Course Structure — HND ACR

Credit values are set by the Ministry of Higher Education, Cameroon.

PROFESSIONAL COURSES
